

Michael Fugler, Chairman, EURO Financial Network, Inc., Introduces Nemaha Water Services at FSX

Dallas, TX (PRBuzz.com) February 22, 2013 -- Michael Fugler, Chairman, EURO Financial Network, Inc., introduces Nemaha Water Services, L.P. and Michael Morford at the Financial Services Exchange (FSX) conference in Dallas, Texas.

Michael Fugler, Chairman of EURO Financial Network, Inc., stated, "Depending on technology and economics, as much as 1 trillion barrels of oil equivalent could be recovered from U.S. shale resources. For reference, 1 trillion barrels is nearly 4 times the amount of proven oil reserves in Saudi Arabia. The energy potential from our vast shale resources could substantially shift the balance of America's oil supply away from the Persian Gulf. The production of natural gas and oil from shale formations via a process known as "fracking" -- forcing open rocks by injecting fluid into cracks - is the reason for this game-changer. Most people are still not appreciating just how big this is, but Nemaha does and is making a move to be a big part of the effort for U.S. energy independence. I am pleased to introduce to FSX Nemaha Water Services, L.P., an environmental services company working on solving the problem of produced water, which is one of the biggest, immediate and long-term challenges facing the oil and gas industry today."

Mr. Fugler is a global expert and speaker on Entrepreneurship. Delivering education, training, and demonstration workshops on how to go from an idea on a napkin to a stock exchange listing and all steps in between. He has developed the Business Mastery System for Entrepreneurs, teaching how to find capital around the world. Whether seminars, webinars, panels, speaking engagements or public appearances Michael gives an overview of the vision and the knowledge which gives a clearer understanding of how to develop a "Master Plan" using technology and social media in shaping client acquisitions and relationships in this new economy and our changing world, ending with how to develop and present "killer" client presentations that will move clients to action.

Mr. Fugler has been a licensed Attorney for 40 years developing an expertise in international law and finance, international investment and merchant banking. He has also been an Investment Banker for the past 17 years being [FINRA](#) registered with Series 7, 24, 63, 79 and 99 licenses and establishing offices and providing extensive consulting and guidance to institutional investors throughout Europe and the USA and now Asia.

FSX is the premier investment conference organization in the United States. Founded in 1983, they are a national organization comprised of independent FINRA broker/dealer firms. Through a series of regularly scheduled conferences, FSX brings these firms together with the purpose of sharing information and showcasing investment opportunities. The organization has hosted consecutive quarterly conferences for more than 25 years. FSX is one of the most reputable and established national alliances in the country for independent broker/dealers and their firms. FSX has a nationwide network of independent broker/dealers and sponsor organizations. Its member firms have a combined sales force of thousands of licensed professionals with clients who may want to invest in your company. To date, more than \$2.8 billion has been raised for presenting companies through the FSX network.

Nemaha Water Services is an environmental oilfield services company focused on the complicated water aspect of the oil & gas industry. Handling saltwater, fresh frac water, and frac flowback is one of the most challenging aspects facing oil & gas operators. Not only is it a logistical headache; but also, this water represents a major threat to the environment. At Nemaha, we view water as an even greater precious resource than the oil & gas itself. We believe our industry-leading approaches to this global challenge sets us apart.
