

Michael Fugler Interviews Corvus Technologies for the Interlinked Investment News Channel on InterlinkedTV

Marina Del Rey, CA (PRBuzz.com) May 19, 2014 -- Michael Fugler interviewed Corvus Technologies for the Interlinked Investment News Channel on InterlinkedTV in Marina Del Rey, California.

Corvus Technologies, a company that features the Tracker System to locate and track people inside buildings thru walls where GPS cannot, granted an exclusive interview for the Interlinked Investment News Channel on InterlinkedTV during the recent FSXinterlinked Investment Conference.

Corvus Technologies was one of the presenting companies interviewed at the FSXinterlinked Investment Conference, held at the Ritz Carlton in Marina Del Rey, California.

During the interview Corvus Technologies Corporation President & CEO, GlenVar Rosenbaum, said, "About two years ago we had an idea that we wanted to implement. It was a fairly big idea. So we put together a core team of people and for the last two years we have been working hard to build a working prototype."

Mr. Rosenbaum added, "This is a tracking technology, sometimes referred to as a tracker system that lets you locate people inside of buildings. Buildings with walls, thick walls, where GPS is no longer reliable or sometimes even available. It lets you know, not only where they are at, but you can have a history of where they have been. And ... you can actually project the direction that they are moving into."

Continuing GlenVar stated, "Michael made me feel very comfortable throughout the interview and brought me through the subject matter exactly where I wanted to go, he is a very skilled interviewer and very informed about the capital markets."

Corvus Technologies Corporation's core customers are firefighters and the military. They enter into burning buildings, with infrastructure that may be changing with a lot of smoke outside. The Tracker System tracks a badge, similar to a business card with some electronics on it that is attached to the person of interest. The system allows for setup outside of the building or at a different location and track the person of interest once they are in. In addition, Corvus can provide biometrics. More information is available at their Public Profile on Interlinked.com.

The interview was conducted by FSXinterlinked Investment Conference Host, Michael Fugler, and is available on the FSXinterlinked channel on InterlinkedTV. After the interview Mr. Fugler stated, "I love having the opportunity to get involved with the early

stages of new technology like Corvus, because I get a glimpse of the future during my interview and feel like I get to open a window for our viewers and share a quick peak.”

Michael Fugler, Chairman, EURO Financial Network, Inc.

Mr. Fugler is a global expert and speaker on Entrepreneurship, an Attorney, Investment Banker, Coach and Consultant who has spent a significant part of his career providing extensive consulting and guidance to institutional investors throughout Europe, the USA and Asia.
