Corvus Technologies was one of the presenting companies interviewed at the recent FSXinterlinked Investment Conference, held at the Ritz Carlton in Marina Del Rey, California.

During the interview Corvus Technologies Corporation President & CEO, GlenVar Rosenbaum, said, "About two years ago we had an idea that we wanted to implement. It was a fairly big idea. So we put together a core team of people and for the last two years we have been working hard to build a working prototype."

Mr. Rosenbaum added, "This is a tracking technology, sometimes referred to as a tracker system that lets you locate people inside of buildings. Building with walls, thick walls, where GPS is no longer reliable or sometimes even available. It lets you know, not only where they are at, but you can have a history of where they have been. And ... you can actually project the direction that they are moving into."

Corvus Technologies Corporation's core customers are firefighters and the military. They enter into burning buildings, with infrastructure that may be changing with a lot of smoke outside. The Tracker System tracks a badge, similar to a business card with some electronics on it that is attached to the person of interest. The system allows for setup outside of the building or at a different location and track the person of interest once they are in. In addition Corvus can provide biometrics. The interview was conducted by FSXinterlinked Investment Conference Host, Michael Fugler, and is available on the FSXinterlinked channel on InterlinkedTV.

About FSXinterlinked Investment Conference
FSXinterlinked is the premier investment conference organization in the United States. Founded as Financial Services Exchange (FSX) in 1983, it is a national organization comprised of independent FINRA broker/dealer firms and private equity fund managers. With quarterly investment conferences hosted throughout the U.S., FSXinterlinked creates a forum for emerging growth companies seeking capital to present to a nationwide network of financial investment professionals.

The FSXinterlinked network of independent broker/dealers has a combined sales force of thousands of accredited investors looking to invest in companies of all sizes and industries. To date, more than \$3 billion has been raised for presenting companies through the FSXinterlinked network. FSXinterlinked's exclusive network of FINRA firms makes the investment conferences the ideal setting for private and public companies seeking mezzanine financing, funding for private placements, IPOs, secondary financing and pipes, exposure, and more. For more information, visit <http://www.fsxinterlinked.com/>.

Interlinked is a global investment community of accredited investors, emerging growth companies, and resource partners. Interlinked offers an efficient way for companies to maximize exposure and access a private network of funding sources and verified service providers. For investors, Interlinked provides a secure environment to find, vet and engage companies, and communicate with members. Interlinked gives members exclusive access to a proprietary investment platform, which integrates virtual data rooms, video news, a service provider marketplace, an event directory, and customized marketing services, including email marketing, video production, public relations and more.
